PRETTY MUCH ALL OVER THE STATE

WE ARE asking for the best quality of business. We want men who demand the best for themselves and their boys to see the sort of Suits and Overcoats that we stand back of. Our great specialty is the clothing made by Rogers, Peet & Co., of New York City. This is the "money back if you want it" kind. \$15.00 suits and overcoats that compared with ordinary fifteen dollar suits and overcoats are worth \$20.00 is the starting line. If you want to go lower, or think you must, we meet your demand with suits and overcoats of our own production that cannot be beaten or even matched. "Your money back if you want it" applies to these lines the same as the finer ones. If you cannot come to see us remember we pay the express both ways on Suits and Overcoats for you to look at. We should be pleased to hear from you by mail or telephone.

GIVE'S BACK MONEY

To patients His treatment Fails to cure !

A Doctor's Unprecedented Offer.

DR. J. W. MERROW.

We have heard of the offers of "No cure no pay." "No money paid until a cure is effected." But there is the physician who, having taken pay from his patient for services, voluntarily gives that money back on demand if his treatment fails to do what he promised. This is only another instance of the original methods of Dr. Merrow, the physician making this unprecedented offer, a tribute to his honesty of purpose, a splendid exhibition of his faith in his skill and ability to cure disease.

Dr. Merrow is not merely a doctor, he is something more; he is a thinker. His knowledge is something that comes from no mere text books. His methods are original and different from those employed by any other physician. He possesses the faculty of intuitively determining the source of a trouble without depending completely on symptoms, which stamps him the born physician, and has gained for him the title of a genius of medicine.

His superb skill in removing cancers and tumors without use of the knife or loss of a drop of blood, have robbed these dreadfully troubles of half their terror, while his cures of hundreds of cases of chronic invalidism and cases of so-called incurable diseases have quickened the spirit of hope in the hearts of many despairing ones; while his record of over 14000 cures since he came to Vermont a short four years ago, place him easily the foremost physician in the State today.

And now he comes forward with this remarkable offer, and in this he pledges himself, that any one of his patients who has taken his treatment, followed his directions completely, and has not obtained the results that he promised, can come to him and he will return the fees they may have paid him.

Could anything be more convincing? Can anyone doubt what Dr. Merrow says he has done and can do for the sick and afflicted?

Dr. Merrow's office days are Mondays, Wednesdays, and Saturdays, when he may be consulted in person, or one may write him and receive treatment at a distance by the most perfect system of mail treatment ever devised.

Planting the Financial Tin Can

Don't Expect to Grow a Crop of Tomatoes From the One Printed on the Label

From "Old Gorgon Graham; More Letters From a Self Made Merchant to His Son," by George Horace Lorimer. By permission of Doubleday, Page & Co., Publishers.

I don't care how much or how little money you make, I want you to understand that there's only one place in the world where you can live a happy life, and that's inside your income. A family that's living beyond its means is simply a business that's losing money, and it's bound to go to smash. And to keep a safe distance ahead of the sheriff you've got to make your wife help. More men go broke through bad management at home than at the office. And I might add that a lot of men who are used to getting only one dollar's worth of food for a five dollar bill downtown expect their wives to get five dollars' worth of food for a one dollar bill at the corner grocery and to save change toward a pair of diamond earrings. These fellows would plant a tin can and kick because they didn't get a case of tomatoes.

Of course some women put their husbands' salaries on their backs instead of his ribs, but there are a heap more men who burn up their wives' new sealskin sacks in two bit cigars. Because a man's a good provider it doesn't always mean that he's a good husband; it may mean that he's a good husband; it may mean that he's a good husband; and it comes down to betting which, on general principles the man always carries my money. I make mistakes at it, but it's the only winning system I've ever been able to discover in games of chance.

You want to end the wedding trip with a business meeting and talk to your wife quite as frankly as you would to a man whom you'd taken into partnership. Tell her just what your salary is and then lay it out between you—so much for joint expenses, the house and the housekeeping, so much for her expenses, so much for yours and so much to be saved. That last is the one item on which you can't afford to economize. It's the surplus and undivided profits account of your business, and until the concern accumulates a big one it isn't safe to move into offices on Easy street.

A lot of fool fathers only give their fool daughters a liberal education in spending, and it's pretty hard to teach those women the real facts about earning and saving, but it's got to be done unless you want to be the fool husband of a fool wife. These girls have an idea that men get money by going to a benevolent old party behind some brass bars and shoving a check at him and telling him that they want it in fifties and hundreds.

You should take home your salary in actual money for awhile and explain that it's all you got for sweating like a dog for ten hours a day through six long days and that the cashier handed it out with an expression as if you were robbing the cash drawer of an orphan asylum. Make her understand that while those that have get, when they present a check, those that haven't get it in the neck. Explain that the benevolent old party is only on duty when papa's daughter has a papa that Bradstreet rates AA, and that when papa's daughter's husband presents a five dollar check with a ten cent overdraft he's received by a low browed old brute who calls for the bounce to put him out. Tell her right at the start the worst about the butcher, and the grocer, and the ice-man, and the milkman, and the plumber, and the gas meter—that they want their money and that it has to come out of that little roll of bills. Then give her enough to pay them, even if you have to grab for your lunch from a high stool. I used to know an old Jew who said that the man who carved was always a fool or a hog, but you've got to learn not to divide your salary on either basis.

Make your wife pay cash. A woman never really understands money till she's done that for awhile. I've noticed that people rarely pay down the money for foolish purchases; they charge them. And it's mighty seldom that a woman's extravagant unless she or her husband pays the bills by check. There's something about counting out the actual legal tender on the spot that keeps a woman from really wanting a lot of things which she thinks she wants.

The iron ore returns for 1903 show that the highest average value at the mine in 1903 was placed on the Colorado iron ores, viz., \$3.12 per ton, and the lowest on Texas ores, \$1 per ton. Generally speaking, there were but slight changes in the various states between the prices which prevailed in 1902 and in 1903, says the Mining World. Of the states comprising the Lake Superior region, Michigan reported the same average price as in 1902, \$2.40 per ton, Minnesota an advance of 17 cents and Wisconsin a decline of 1 cent from the respective 1902 valuations of \$1.58 and \$2.30 per ton.

Over-Work Weakens Your Kidneys.

Unhealthy Kidneys Make Impure Blood.

All the blood in your body passes through your kidneys once every three minutes.

The kidneys are your blood purifiers, they filter out the waste or impurities in the blood. If they are sick or out of order, they fail to do their work.

Pains, aches and rheumatism come from excess of uric acid in the blood, due to neglected kidney trouble.

Kidney trouble causes quick or unsteady heart beats, and makes one feel as though they had heart trouble, because the heart is over-working in pumping thick, kidney-poisoned blood through veins and arteries. It used to be considered that only urinary troubles were to be traced to the kidneys, but now modern science proves that nearly all constitutional diseases have their beginning in kidney trouble.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and the extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy is soon realized. It stands the highest for its wonderful cures of the most distressing cases and is sold on its merits by all druggists in fifty-cent and one-dollar sizes. You may have a sample bottle by mail. Home of Swamp-Root, free, also pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing Dr. Kilmer & Co., Binghamton, N. Y.

Vermont Markets.

BRISTOL, Oct. 31.—Saturday, market day, prices for farm products ruled as follows: Dairy butter, 18 to 20 cents a pound; eggs, 24c. a dozen; hides, 5¢ cents a pound; live poultry 8 to 10 cents a pound; dressed poultry 12 to 14 cents a pound; ginseng, \$6 a pound; dressed beef and pork, \$6 to \$6.50 a hundred pounds.
